

This limited warranty gives you specific legal rights which are in addition to those conferred on you by law and under consumer legislation.

Any questions relative to the terms of, or obtaining performance under this limited warranty should be directed to your supplier.

La-Z-Boy reserves the right to discontinue or change parts, models and products or to make substitutions. The exclusive remedy and limited warranty offered by the company and its entire undertaking and obligation with respect to the product are stated above and may not be changed or enlarged by any person, retailer or company without express written authorisation of La-Z-Boy.

#### IMPORTANT SAFETY PRECAUTIONS

**LEG REST:** FOLDS DOWN ON CLOSING

**To avoid injury:** Check carefully for obstructions. Ensure the leg rest is always in the closed position whenever the chair is not in use.

#### MOVING PARTS:

Can pinch fingers, to avoid injury please be careful of moving parts.

#### CHILDREN:

We recommend you don't allow children to operate the chair themselves.

#### USAGE:

This product is NOT intended for rental use or for use in business institutions or other heavy duty applications. It is only for personal use in the owner's home. Maximum safe weight limit 120kg.

## La-Z-Boy warranty

With every La-Z-Boy product, you receive the famous La-Z-Boy warranty, one of the best in the industry.

To receive service on your La-Z-Boy product, please contact the authorised La-Z-Boy retailer from whom you purchased the product. Proof of purchase will be required.

La-Z-Boy warrants this product to the original consumer purchaser as follows:

### frame / mechanism

The frame comprises the wooden frame, seat springs and rocker springs, where applicable. Metal reclining/inclining mechanisms frame parts and springs have a limited warranty against manufacturing faults and defects in materials used for 10 years from the date of delivery to your retailer.

Reasonable repair or replacement of defective parts will be made within 12 months at no cost to you. After 12 months a callout labour charge will be made of £50 + VAT will be made.

### electrical components

Electrical motors, electrical components and electronically operated lifting and rolling mechanisms have a limited warranty against manufacturing faults and defects in materials used for 2 years from the date of delivery to your retailer. Reasonable repair or replacement of parts will be made within 1 year at no cost to you and there after a callout labour charge will be made of £50 + VAT.

### foam

Padding and foam have a limited warranty against defects for 12 months under normal domestic use.

### upholstery

Fabric and leather have a limited warranty against defects for 12 months under normal domestic use.

Leather must be cleaned in accordance outlined on the reverse. Please note, the warranty does not cover defects arising from negligence or misuse such as soiling, fading, wrinkling, creasing, accidents or imprudent cleaning.

Please note the warranty does not cover fabrics provided by other suppliers or defects arising from negligence or misuse such as soiling, fading, wrinkling, creasing, accidents or imprudent cleaning.

Please refer to the reverse for recommended covering care treatments. Application of fabric protection will invalidate this warranty.

Warranty coverage applies only to defects in products that are used exclusively for personal, family or household purposes by the original purchaser. It does not cover rental, business, commercial or institutional uses. The warranty does not extend to damage resulting from accident, misuse, abuse, or abnormal use.

#### GENERAL TIPS

**Correct Usage**  
Never sit on the leg rest when raised. **DO NOT** force the handle forward without first pulling it back to the lock position.

Furniture with decorative trims will require special care.

Remember, fringing and valances are prone to snagging by heels, vacuums, pets etc. Furniture will suffer with harsh treatment.

Please **DO** take care with heels etc and **DO NOT** allow children to use your furniture as a climbing frame. Much of our upholstery features gathering along certain sewing seams known as 'comfort wrinkles' this is a random process and will vary from one part of the chair to another.

Your reclining furniture needs mechanical tolerance in order to work, therefore a certain amount of side movement can be expected, especially when no one is seated on the chair.

Your sofa/chair should be well clear of all obstructions before use. Sofas which feature reclining options need mechanical tolerance in order to work correctly and therefore cannot always line up perfectly after use. Use both ends of your sofa to ensure even wear.

Consideration and due care should be given to the type of floor covering that the furniture is used on. If the furniture is used on a deep pile carpet, the weight of the furniture may cause deep impression marks on the carpet. Please also ensure that the motor does not come into contact with the carpet on electrically powered furniture.

When moving the furniture on a wood or laminate floor please lift the furniture to avoid the possibility of any marks being caused to the surface of the floor.

All our fabrics are labelled on the retailer's fabric swatch as to wear-ability. Please ensure that you select the correct wear-ability range to match your lifestyle.

#### UPHOLSTERY CARE

Zips are fitted on many cushions to aid manufacture only, covers are not designed to be removed. Be careful with rings, buckles, bracelets etc. They can all catch on your upholstery. If one of the yarns is snagged, simply cut it short, it will be less noticeable.

Your recliner has been designed to be sat on in comfort, so please use it correctly. Sitting on the edge of the seat cushion and arms will cause premature wearing and distortion of the fillings. The arms in particular come in for a good deal of wear over the years. Try not to rub your hands over them continually. If necessary, matching arm caps can be purchased for chairs and sofas with fabric covers. Head pillows can also suffer from soiling by hair, oil or grease, please use a headset cover if necessary.

#### GENUINE LEATHER:

If you have chosen Genuine Leather furniture, it is essential to realise that the natural characteristics of leather mean that no two hides are ever alike. Although great care is taken to select the hides, it would be impossible and undesirable to obscure all the natural markings, remember these are the living proof of genuine leather.

#### CREASING AND STRETCHING:

Leather is inclined to stretch and will show as creasing to cushion tops. On deep buttoned furniture this can lead to opening of pleats, this is not a fault but is normal for this type of upholstery.

#### NATURAL MARKS:

These are not faults, they are features of genuine leather that have been successfully imitated by man.

#### SUNLIGHT:

Upholstered furniture should not be exposed to direct sunlight, otherwise fading of the fabric can occur. Protect it by drawing the curtains or blinds or by simply placing it away from windows.

#### REGULAR CLEANING:

Even light, dust and dirt will increase wear on the fabric and can dull the colours, giving a faded appearance. Occasionally vacuum your upholstery and go over it with a soft brush. NEVER use a stiff fibre or metal brush as this will damage the fabric.

#### CARE OF LEATHER:

Remove surface dust with a soft duster. If soiled, use a damp cloth and dry immediately with a soft cloth. Regular cleaning and conditioning of the leather will prolong the life of your furniture. Care kits are available from your retailer and directly from La-Z-Boy. Usage will depend on your lifestyle.

#### CONDITIONING:

If your furniture is in an exceptionally dry place, for example against a radiator, you may wish to condition the leather with a proprietary hide food. Once per year should suffice.

**DO NOT use spray polish or other chemically based products, avoid saddle soap or abrasive cleaners of any description**

#### WET CLEANING:

Wet cleaning is not recommended unless otherwise specified. Do not attempt to wash your La-Z-Boy. This can cause colours to bleed and if padding becomes damp, staining and interior damage can result. For small stains use a proprietary stain remover. In furniture of a 'soft loose modern design' a regular dressing programme should be practiced. This involves 'pumping up' of all back, seat and arm cushions. This will help your cushions retain their shape and appearance, giving balanced wear.

**Acrylic (Dralon and similar) velvets will crease and crush during normal use, creating random shading. These are not wear marks but simply pile displacement.**

**THIS IS AN INHERENT CHARACTERISTIC OF THIS TYPE OF FABRIC**

#### NOTHING LASTS FOREVER:

Even your La-Z-Boy will wear out in time. However, with care, this time will be prolonged making your La-Z-Boy upholstery a continual source of pride and satisfaction.

We cannot accept liability for damage or defects resulting from failure to comply with the above advice instructions.
