

Comfort Studio

HINTON

With its bold styling and optional accent lighting, Hinton is guaranteed to be the centre of attention.

Featuring a high back and full chaise leg rest for ultimate support plus extra-wide padded arms, Hinton is built for relaxation.

Button detailing to the sides provides a stylish point of interest, but Hinton's big statement comes with its option of LED light strips beneath the recline, providing a gentle glow. Hinton is available as a manual recliner, or a power recliner, plus the option of the LED light bar on the power version.

Choose your ideal colour option from a wide range of high quality fabrics and leathers
