

DIXIE

Dixie effortlessly blends comfort with technology to give you the perfect place to relax, unwind and destress. This range offers the premium quality and support you'd expect from La-Z-Boy but with a smart, contemporary design and some additional features designed to make your life easier.

Dixie sofas come with the option of including a useful console unit, which includes wireless charging, cooling cup holders, discreet spotlights, (which fold out if you need extra light) and Bluetooth speakers. There is even somewhere to keep your devices with a handy storage box and hidden drawer.

Choose between static, manual or power recline and you can even add lumbar support and a head tilt for additional comfort.

LONG LIVE THE LAZY™
